WOMAN'S FORTITUDE SAVED SCHOONER

Stood Pashed to Wheel Forty Eight Hours.

VESSEL SHOWED STORM MARKS

Schooner's Deck Was Swept Clean and Her Sails Were in Tatters, But the Hull Withstood the Terrific Pounding of Stormy Sea.

Machias, Me., Nov. 28.—To the heroic fortitude of the captain's wife, Mrs. Frank McGuire, who stood lashed to the wheel during the severe gale that swept the New England coast from Sunday, Nov. 11, to the following Wednesday, is due largely the safety of the schooner Gold Hunter, of Blue Hills, Me., which worked her way into this harbor Monday, eleven days overdue from Portland. The little vessel showed plainly the marks of the storm. Her deck was swept clean and her sails were in tatters, but the hull withstood the terrific pounding it received.

The Gold Hunter, with Captain McGuire, his wife ad one man for an assistant, left Portland Nov. 10, with a general cargo for this port. November 11 the Gold Hunter made good progress with clear weather until the afternoon, when the wind breezed up from the northeast while the vessel was 4 miles off Peter Manan light. A sudden gust of wind split the main sail of the vessel and carried away the jibs. Without her head sails the little schooner became unmanageable. The sea made up rapidly and the vessel was continually smothered in the wash of the combers. Mrs. McGuire was below at the time the storm broke, preparing supper, but rushed on deck and took the wheel while her husband and his assistant went to work to bend on a foresail so as to bring the vessel up to the wind. With the craft wallowing wildly in the trough of the sea, the task was most difficulty. With great patience and consumate seamanship the two men labored for hours to get their little rag of sail set, while Mrs. McGuire, lashed to the wheel, aided as well as she could by what little steering was possible, on the almost helpless craft.

Finally the foresail was rigged, double reefed, and while the two men clung exhausted to the mast, Mrs. McGuire brought the vessel around head up to the wind and held her there for 48 hours. Before the fury of the gale the vessel drifted out to sea for 96 miles off Mount Desert Rock. In all this time it was impossible to cook food or even to heat up any coffee. Kept up only by excitement and pluck, Mrs. McGuire clung to her post through the height of the gale, while Captain McGuire and his man attended to their little storm sail which continually broke from its insecure fastenings. It was a man's work at the wheel, with the helm "kicking" strongly to the wild plunges of the ship, but the endurance of the rugged north woman was equal to the test.

November 13 the gale abated, and the two men rigged temporary sails before Mrs. McGuire could be relieved from her post. All hands were exhausted with their struggles and exposure and under such scanty canvas as could be set, it was hard and slow work bringing the Gold Hunter into port where she had been given up for lost.

New York, Nov. 28.—A fine of $18,000 was imposed on the American Sugar Refining company by Judge Hough in the United States circuit court Tuesday for accepting rebates from the New York Central railroad company. The company was allowed 60 days to prepare an appeal. The rebates amounted to $26,000.

KEEPING THEM FROM SOUTH.

Commissioner of Immigration Stops Immigrants.

Columbia, S. C., Nov. 28.—Being informed that immigrants intended for South Carolina were being held up at Ellis Island by the wholesale, Governor D. C. Heyward has seen the following telegram to Robert Waltham, commissioner of immigration, Ellis Island:

"Please advise facts. We have not a single person coming in an advanced, assisted or prepaid passage, so far as we are cognizant, and not one under even suggestion of contract, but all under strict compliance with United States statutes. If this is correct, I propose to carry the matter to the president immediately, and consequently request that you wire the facts, considering this as a notice of appeal. This state, as one of the constituent states of the union, has been acting in an open, legal manner under United States laws as interpreted by the state department, in all its immigration work, and any atempt of the kind reported will be most vigorously resisted. D. Heyward, "Governor."

Takes Part in Rehearsal.

New York, Nov. 28.—Enrico Caruso, the grand opera tenor, took part in a rehearsal Monday for the first time since his hearing in police court

ENRICO CARUSO.

begun. His throat was improved and Herr Conried, the impressario, is almost certain now that the tenor will be able to apear in his opening gagement as Rodolfo in "La Boheme" Wednesday night. Caruso, it was said at the offices of the Metropolitan Opera house, was received cordially at the rehearsal. The management of the Metropolitan Opera house was not ready to announce what plans it had made, if any, to prevent any demonstration on Wednesday night.

Medical Experts Testify.

Herkimer, N. Y., Nov. 28.—With interest heightened by the declaration of the medical experts that Grace Brown was clubbed before she fell into the water of Big Moose lake, there was a larger crowd than ever at the Gillette murder trial Tuesday. More than a thousand persons were turned away and those who got seats were on hand as early as 7 o'clock to secure them. Only two of the six doctors employed by the district attorney to perform the autopsy on the body of Grace Brown have been on the stand. The district attorney will probably finish the questioning of two more of them today. The prosecution cannot finish its side of the case before Thanksgiving, and the case will not go to the jury before Wednesday of next week.

Japanese School Exclusion.

San Francisco, Nov. 28.—Arthur May Knapp, editor of the Daily Advertiser of Yokohama, arrived on the Siberia from the Orient Monday. Asked about the impression created in Japan by the Japanese school exclusion in San Francisco, he said he did not think it had or would ultimately lessen the cordiality of the entente existing between Japan and the United States.

LONE ROBBER SOUGHT CASH FROM THE RICH

Man Who Robbed Passengers Tells His Story.

WORKMEN EXEMPTED BY BANDIT

He Only Wanted Money from Those Who Made It Easy and Could Afford to Lose—Tells How He Was Overpowered and Disarmed.

Marshall, Mo., Nov. 28.—The bandit who held up the Chicago and Alton train Sunday night between Glasgow and Slater, was brought to the county jail Monday afternoon, and immediately opened negotiations with the prosecuting attorney, offering to make a full confession if the charge against him was made burglary.

In Missouri the maximum penalty for train robbery is death, and the minimum is ten years' imprisonment. The bandit then volunteered a statement as follows:

"My name is Claude Randall. My age is 20 years and nine months. I came from St. Louis to Mexico, Mo., on the Wabash and from Mexico to Slater on the Chicago and Alton railroad Sunday. My brother was the one who robbed the Golden State limited, and he told me that the Golden State limited did not stop between Slater and Mexico, and for that reason, I came to Slater to get on the train. I got on the smoking car and went through it, and entered two or three other cars.

"I did not take any money from workingmen and women, as I only wanted to take money from those who made it easy, and could afford it. One man on the train when he heard me tell another passenger that I did not want any of his money because he was a laborer, said he was a laborer also. I did not believe him, and asked him to show me his hands. Upon looking at them I found them as soft as a woman's. I then made him dig up, taking from him his $45 watch, which I told him I would send to the St. Louis Republic, where he could get it, as I only wanted it to keep time by until I got to my destination. When the train reached Glasgow, I got off on the platform, and as the train started to move I mounted it again, and began going through the passengers in a sleeping car, where I allowed the conductor to get too close to me, and he grabbed my pistol and my throat. He then wrenched the pistol from me and I broke and ran to the back of the train.

"Many of the passengers and all of the train crew rushed upon me, while the train was in motion, and struck me in the head with a pistol and tried to throw me overboard while the train was running 40 miles an hour. The train soon stopped, and I was captured and put off at Armstrong, and brought from there the next morning to Glasgow, and from there to this place. I got about $1,500 and about eight or ten watches from the passengers on the train. I did not want this jewelry, but they forced me to take it."

The prisoner is now awaiting a prelimanry hearing, which will be held within a few days.

Had Served Prison Term.

Kansas City, Nov. 28.—The man who, at Marshall, Mo., confessed to having robbed the Alton-Burlington train near Glasgow, Mo., on Sunday night and who gave his name as Claude Randell and Claude Rumsey, who was released from the United States military prison at Ft. Leavenworth, Kans., Nov. 3, after serving a sentence for desertion from the army, would seem beyond question to be one and the same man. The description of both men tally in every particular, according to the prison record of the man given the Associated Press Tuesday by Maj. Young at Ft. Leavenworth. Major Young said that during Rumseys incarceration in the military prison it was necessary frequently to administer punishment for misconduct. He was considered a desperate man.

RESIGNATION OF CRAPSEY.

Will Likely Broaden and Liberalize Tenets of Church.

New York, Nov. 28.—The Tribune says indications are that the resignation of Rev. Dr. Algernon S. Crapsey, of Rochester, after his conviction of heresy by an ecclesiastical court, will set in motion a movement in the Episcopal church to broaden and liberalize its tenets.

Rev. Foster Peabody is quoted as saying that while no steps had been taken in that direction yet, a meeting of men who desired a more liberal church faith was likely to discuss the sentence pronounced on Dr. Crapsey and its bearingg on themselves and the general situation within the church.

A Rochester, N. Y., special to the Tribune says that in a talk with the Rev. Algernon S. Crapsey Monday it developed that after thirty years of service in the Episcopal church and after having built up a church property valued at $150,000, he withdraws from the priesthood practically penniless and with not even a home to go to. His personal charities, added to what he has given directly to his church, have been many and large, and have depleted his resources.

Dr. Crapsey, it is stated, will now devote himself to disseminating his views on the platform and through the medium of the press and reviews.

"Big Stick" for Roosevelt.

Pittsburg, Nov. 28.—A "big stick" provided by nature is on the way to the president according to the Post. In a special dispatch from Marion, O., It is announced that Congressman Grant E. Mouser, of that city, received a large gourd from one of his constituents with a note requesting that it be delivered to President Roosevelt. The gourd is about four feet long and is said to resemble the published pictures of the "big stick." Attached to the gourd was the following message: "Mr. Roosevelt: Please accept 'big stick' and send to congress attached to your next message, and tell them to be good. It was apparently designed by providence for your official use. From your trust-busting Democratic admirers of Marion, O."

Will Build New Line.

Rome, Ga., Nov. 28.—The traction syndicate, composed of Louisville, Ky., capitalists, which recently purchased the Rome Street Car company's system are planing to build an electric line from this city to Rockmart, in Polk county, a distance of 25 miles, to connect with the Seaboard Air Line. This will bring Rome in close touch with two trunk lines and tap a fertile agricultural district which now has no steam or electrical railroad connection. The same company will put Rome in the racing circuit and conduct race meets here in conjunction with the meeting at Douglas Park, Ky.

Guards to Ride With Tillman.

Chicago, Ills., Nov. 28.—Following Mayor E. F. Dunne's refusal to preside at a meeting to be addressed by United States Senator Tillman, of South Carolina, because of strenuous objection made to Senator Tillman's appearance by the negro race of the city of Chicago, it was decided that the senator should be attended by a body guard from the time he arrives in Chicago from Platteville, Wis., until he has delivered his address and enters the train on which he departs from the city.

Cincinnati, Nov. 28.—The first announcement of an increase in wages granted to local railroad employes was made Tuesday when the Baltimore and Ohio Southwestern railway granted their switchmen an increase of 4 cents per hour. The other roads have not as yet announced any increase and conferences looking to a settlement were held Tuesday.

AMERICAN WOMEN FIND RELIEF

The Case of Miss Irene Crosby Is One of Thousands of Cures made by Lydia E. Pinkham's Vegetable Compound.

How many women realize that it is not the plan of nature that women should suffer so severely.

Thousands of American women, however, have found relief from all monthly suffering by taking Lydia E. Pinkham's Vegetable Compound, as it is the most thorough female regulator known to medical science. It cures the condition which causes so much discomfort and robs these periods of their terrors.

Miss Irene Crosby, of 313 Charlton Street, East Savannah, Ga., writes:

"Lydia E. Pinkham's Vegetable Compound is a true friend to woman. It has been of great benefit to me, curing me of irregular and painful periods when everything else had failed, and I gladly recommend it to other suffering women."

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration, that "bearing-down" feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, Lynn, Mass., for further free advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising women free of charge. Thousands have been cured by so doing

A DELIGHTFUL OCCASION.

Miss Irene McCreary Entertains in Honor of Miss Jackson.

One of the most delightful social functions of the season among the young people was given at the home of Senator and Mrs. H. H. McCreary on Tuesday evening, the occasion being a reception tendered by their daughter, Miss Irene, complimentary to her friend, Miss Margaret Jackson of Arkansas, who is her guest.

The home was tastefully decorated, though no elaborate schemes were employed. Japanese lanterns were prominent on the broad, spacious piazza, and the interior of the home was nicely set with roses and ferns, with red crepe and red roses in the dining-room.

The punch bowl, which was presided over by Miss Sallie Merchant, was also tastefully decorated with white crysanthemums, making a very pretty effect.

In the receiving line were Miss McCreary, Miss Jackson, Mr. and Mrs. J. R. Merchant and Mr. Larkin Carter.

There were thirty-five present, and the evening was passed in a most enjoyable manner. Many of the young people who had not previously had the honor were introduced to Miss Jackson, the guest of honor, who is a young lady of rare entertaining qualities, and has made herself a general favorite here.

Dainty refreshments were served, which were greatly enjoyed.

NEWS FROM MELROSE.

A Delightful Motor-Boat Party—Meeting of Woodmen—Other Notes.

Melrose, Nov. 28.—Early in the week Mr. and Mrs. Hamlyn delegated to R. Yearwood the pleasant permission of inviting ten of his young friends for a ride in their motor launch on Saturday afternoon. Promptly on time the young host arrived with his friends, and a nicer lot of girls and boys would be difficult to find. After being received by Mr. and Mrs. Hamlyn with their usual cordial welcome, and all being safely seated, the "Effie," under the able management of Mr. Hamlyn, moved off in fine style. During the trip across Lake Santa Fe oranges and candy were served and much appreciated. When the Pumpkin Patch was reached the children went ashore for a few games and a ramble in the jungle. The return trip was enlivened with songs by the merry party. Many thanks for a most enjoyable afternoon were tendered to Mr. and Mrs. Hamlyn by their happy guests on their departure.

THE CIRCUIT COURT.

After Hearing a Few Motions Wednesday, Adjourned to Thursday.

There was little done at the session of the circuit court Wednesday. After hearing a few motions on cases pending, and little other business of minor importance, the court adjourned until Thursday morning at 8:30, when the civil docket will again be taken up.

The criminal docket at this session has been a heavy one, but Judge Palmer pushed matters. The trials were just but speedy, little time being wasted. The court convicted at this session sixteen prisoners for various offenses, which is the largest number convicted in the same length of time for several years.

Moore Is Given Reprimand.

Washington, Nov. 28.—Complying with instructions from the president, Secretary Wilson, of the department of agriculture, has administered to Willis Moore, chief of the weather bureau, a reprimand for his action, which the civil service commission declared improper, of urging a printer named Cooper to pay certain strike assessments imposed by the Typographical union. Following his refusal to pay and his expulsion from the union, Cooper was ordered by Professor Moore to be transferred to New Orleans, but after the report of the commission had been submitted he was ordered re-instated in the office at Washington, D. C. The secretary declined to say anything about the character of the reprimand.

Sells More of Chamberlain's Cough Remedy Than of All Others Put Together.

Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best of results." For sale by all druggists.

Denounce Chicago Police.

Chicago, Nov. 28.—Denouncing the Chicago police as "bullies," and "tyrants" and Chicago justice as "ridiculous," the recently formed Hebrew Protective association has announced its determination to abandon direct appeal to the police department is cases of "Jew baiting," and conduct its fight by vigilance committee methods. Details of the association's plans were reported to the Jews of the Ghetto at a mass meeting at the west side auditorium. Nearly a quarter of the audience was made up of alleged victims of the rowdyism.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause consumption, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Melvin Visited Packing Houses.

Washington, Nov. 28.—Alonzo D. Melvin, chief of the bureau of animal industry under whose office the administration of the meat inspection law, enacted at the last session of congress, is carried out, has returned from a western tour of inspection which included a visit to packing houses in Chicago, Milwaukee, Denver and Kansas City. He says everywhere there is apparent beneficial effects of execution of the law and manifest desire on the part of packers to comply with its provisions.

RHEUMATISM

TROUBLESOME PAINS AND ACHES

While Rheumatism is usually worse in Winter because of the cold and dampness of a changing atmosphere, it is by no means a Winter disease entirely. Persons in whose blood the uric acid, which produces the disease, has collected, feel its troublesome pains and aches all the year round. The cause of Rheumatism is a sour, acid condition of the blood, brought about by the accumulation in the system of refuse matter, which the natural avenues of bodily waste have failed to carry off. This refuse matter coming in contact with the different acids of the body, forms uric acid which is absorbed by the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. Rheumatic persons are almost constant sufferers; the nagging pains in joints and muscles, are ever present under the most favorable climatic conditions, while exposure to dampness or an attack of indigestion will often bring on the severer symptoms even in warm, pleasant weather. Liniments, plasters, lotions, etc., relieve the pain and give the sufferer temporary comfort, but are in no sense curative; because Rheumatism is not a disease that can be rubbed away or drawn out with a plaster. S. S. S. is the best treatment for Rheumatism: it goes down into the blood and attacks the disease at its head, and by neutralizing the acid and driving it out, and building up the thin, sour blood, cures Rheumatism permanently. Being made entirely of roots, herbs and barks, S. S. S. will not injure the system in the least. Book on Rheumatism and any medical advice without charge.

A DELIGHTFUL RECEPTION.

A Social Function Which Was Largely Attended and Enjoyed.

A delightful social function in the nature of a reception was tendered at the home of Mr. and Mrs. W. H. Robertson, Alachua avenue, East Gainesville, by Miss Robertson, from 4 to 6 o'clock Wednesday afternoon.

The reception was given complimentary to Mrs Chas. Sydney Robertson, who has recently returned from her former home, Monticello.

Mesdames Watson Porter and J. F. McKinstry, Jr., met the guests at the door, while in the receiving line were Miss Robertson, Mrs. C. S Robertson, Miss McClamroch, Miss Eva Robertson, and Mrs. W. H. Robertson.

The refreshment table, from which delicious edibles were served, was presided over by Mrs. W. A. McKinstry and Miss Belle McKinstry, while the punch was dispensed by Mrs. C. R. Layton and Miss Bettie Miller.

The home was beautifully decorated with bamboo and holly, while roses were to be seen in profusion. The center-piece on the dining table was composed of bride's roses.

The afternoon was delightfully spent, and many were afforded the pleasure of meeting Mrs. Robertson, who was formerly Miss Lula Ulmer Bird.

Mrs. C. S. Robertson wore a dress of blue Raja silk, hand embroidered applique and val. lace.

A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn *why* this medicine has such a wide range of application in the cure of diseases. It is sent *free*. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy.

AUTOMOBILE ACCIDENT.

Edmund Shakespeare Run Down and Injured Wednesday Morning.

Edmund Shakespeare, an employe of the job department of The Sun, was the victim of an automobile accident Wednesday which came near resulting seriously, and which will incapacitate him for duty for several days. The machine which ran him down was owned and driven by Jerry Runkle.

Shakespeare was on his way to the express office with a package, when it appears that Mr. Runkle, with his machine going at a rapid rate, suddenly turned a corner, when the collision occurred.

The victim was considerably bruised, and was compelled to go to his home shortly after the accident.

In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cure of colds and it should be kept at hand ready for instant use. For sale by all druggists.

Cambon at Madrid.

Wellman Belief Strengthened.

Chicago, Nov. 28.—Belief in the practicability of reaching the north pole by airship has been greatly strengthened in the mind of Walter Wellman, the leader of the Wellman polar expedition, as a result of his observations last summer at the expeditions base of supplies in Spitzbergen.

JUDGE MASON'S COURT.

Just Christianson Sent Up for Four Months for Larceny.

The mills of justice were set to grinding in the court of County Judge Mason on Wednesday for the first time in several days.

Just Christianson, a name which does not appeal to anything unlawful, was arraigned upon a charge of larceny of a pistol and watch from W. W. Brown at Lochloosa a few days ago. The prisoner weakened immediately upon being arraigned and pleaded guilty, when he was sentenced to pay a fine of $100 and spend four months on the "gang."

Having failed to pay his fine, the prisoner was sent to jail.

Always Was Sick.

When a man says he always was sick, troubled with a cough that lasted all winter—what would you think if he should say he never was sick since using Ballard's Horehound Syrup? Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: 'For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." Sold by W. M. Johnson.

Denies He Is Man Wanted.

Fitzgerald, Ga., Nov. 28.—Sunday evening, while Mrs. William McCormick was in her barn, she alleges she was assaulted by a negro who followed her. With the help of a buggy whip she beat him off before he had accomplished his purpose. As he ran out into the alley a white man who had heard her screaming, chased the negro for some distance, but when the negro drew a gun and told him to run the other way he promptly obeyed, and the negro disappeared. Monday forenoon a negro, giving his name as Reuben Jones, was arrested and identified by Mrs. McCormick as her assailant. He denies being the negro wanted. He is now in jail awaiting an examining trial.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c, in stamps for sample to The Herpicide Co., Detroit, Mich.

It is not surprising that some of our young men seem to have such hard work to be decent. Just remember that the first man to dwell upon the earth was no saint. If we can rely upon history he was a liar and a sneak. The first woman kept bad company, and woman-like pried into things that did not concern her. The first child born was a murderer and killed his brother. Our first ancestors were a rough lot and it is hard to get it out of the blood.

Dr. W. McL. Dancy of Jacksonville was seriously injured one day last week by being thrown from a horse while deer hunting near Crescent Lake. He fell on his shoulder, breaking his right arm in two places, injured his left arm so badly he could not use it, sprained his back, badly bruised his body in several places, and is now in a critical condition at his home. Dr. Dancy is one of the best known dentists in Florida and was for years prominent in politics both in Duval county and the State. His numerous friends hope for him a speedy recovery.

Many a young woman who deserves a good man for a life companion has jumped in at a tender age and married Johnny, and gone through life embittered the rest of her days. Johnny sells all right as an ice cream boy and as slot machine with which to get chewing gum and bon bons, but when it comes to measuring up, in after years, with the men who do things, and whose wives make up the budget of satisfied ones, he is down and out before the race starts. Girls, if you must marry, and you must, if you would be happy, be sure and marry a man, or at least what is going to be a man.

Who wouldn't be a farmer? There is just one trouble—only the farmers know how to farm. There are thousands who would like to quit the towns and cities and emigrate to the country, and possess themselves of broad prairie fields and proceed to make two blades of this, that or the other of grass grow where one or none grew before, but this proposition presents—that it takes from two to twenty years to learn how to farm (some folks never learn), and within such a period bankruptcy might occur several times over. But if all of us cannot be farmers, all can admire the horny-handed sons of toil and rejoice with him in his present great prosperity. He is the bulwark of the nation and the salt of the earth.

The recent conviction of prominent timber men of Alabama on the charge of peonage—holding people in restraint for debt—will tend to make a certain class of laborers regard with scorn honor their obligations to their employers. Under the laws of the United States one cannot be forced to work out a debt for money or goods advanced, no matter whether the agreement to do so be verbal or in writing, and any State law to the contrary is unconstitutional. This people may see as injustice to employers who advance money and goods to their laborers, and some protection should be afforded. Of course imprisonment for debt is repugnant to the American people, but there should be some method provided by which to force a certain class of people to fulfill their obligations.

THANKSGIVING DAY.

This is the day set apart by the President of the United States and the Governor of Florida as a day of Thanksgiving—a day wherein every man, woman and child should bow their heads in humble prayer to their Maker for the great blessings He has seen fit to bestow upon every one of us, no matter how wicked and sinful we might have been all our lives. He has been good to the sinner as well as to the saint, has caused the rain to fall upon the unjust as well as the just, has given the farmer abundant crops and the merchant a prosperous year, for all of which we should be thankful.

A great many people misconstrue the object and purposes of Thanksgiving day. There are some people who, with gun and dog, take to the woods to shoot the innocent and unsuspecting quail or dove, and others for any kind of sport, fun or frolic, or anything but the real purpose for which this day is intended. Some few have a different view, and will remain at home and discuss their neighbors, their faults and habits, not for a moment speaking of their good traits. Then there is a class who well know the object and purpose of Thanksgiving day and who will spend it as it should be.

These good people will meet in the holy sanctuary and lift up their voices in prayer to the Great Ruler of the Universe for the many blessings and comforts showered upon them and theirs. This is the proper observance of the day, and is in accord with the proclamation designating it as a day of thanksgiving.

Young people, stop and reflect before you desecrate this day. Celebrate it as it should be, and as it was intended to be—a day of prayer and thanksgiving to the Divine Ruler for His goodness and kindness to us through all our lives. Turn over a new leaf, and assemble with the good people at the Tabernacle and properly observe the day by offering up to your Master humble prayer for His blessings.

The woman who is always well and neatly dressed is able to exercise a greater influence for good than one who is the reverse. The well dressed woman is attractive to the eye and the eye is one of the main avenues to the heart. Other things being equal, her influence is more potent than her neighbor's, whose reputation of dressing "just as it happens" at home in some indefinable way casts a shade over whatever virtue she may possess. A woman neatly dressed is ready for emergencies. The chance caller and the unexpected guest find her ready to receive them. But perhaps the greatest necessity for looking well at home exists in the home itself. To the members of their families they owe the first duty.

Admiration alone will not run a newspaper. Sooner a later such admirers will find that the object of their affections has become wedded to other ways that they do not admire—in other words, a newspaper is compelled, in order to live, to seek the friendship of those who are not so platonic in their love, but unite their practical esteem with sentiment that binds mutual admiration in other professions. There are too many men who expect an editor to slave in defense of their pet notions and hobbies, advocate their views against the strongest opposition, and coolly withhold the business support by which alone a newspaper can live.

We wonder how many parents realize that their child is a book of blank paper in which shall be recorded the record of their own lives. Be careful therefore what you have written there, for the world will read it. All your secret thoughts the child will try to write.

Bill Nye had the truth well told when he said: "A man may use a wart on the back of his neck for a collar button, ride on the back coach of a railroad train to save interest on his money till the conductor gets around, stop his watch at night to save wear and tear, leave his 'i' or 't' without a dot or cross to save ink, pasture his mother's grave to save corn," but a man of this sort is a gentleman and a scholar compared to the fellow that will take a newspaper two or three years and when asked to pay for it puts it into the office and has it marked "refused."

ATTAR OF ROSES.

How This Delicious and Expensive Perfume Is Made.

The word "attar" is from the Arab "itr" and means perfume. So attar of roses is simply perfume of roses. It is brought from Turkey and the East Indies in small vials and is very costly. Even on the spot where it is manufactured it is extremely dear, because it requires 100,000 well grown roses to yield but 180 grains of attar.

Its high price causes it to be often adulterated with some essential or fixed oil or with spermaceti. However, the adulteration may be detected by putting it in a watch glass with a drop of sulphuric acid. If the attar be pure it will remain colorless, for pure attar of roses is colorless, but if it be adulterated it will become darkened.

In rose fields, where the roses are grown for the purpose of making the attar, the bushes are planted in rows. In the early morning they are laden with beautiful roses, but ere noon comes they are all gathered and their petals distilled in clay stills, with twice their weight of water.

The water that "comes over" is put into perfectly clean vessels and is then carefully covered with damp muslin clothes to keep out dust and insects. It is afterward exposed to the night air or to artificial cold. By morning a film is swept off with a feather and very carefully transferred to a small vial. Night after night this process is repeated until all of the precious oil is separated from the water.

BUSINESS SENSE.

A Well Ordered Desk Means a Well Ordered Mind.

"There's one piece of advice," said the senior partner, "that I'd like to give every young man taking a business position with a desk attached to it. It's this: Keep your desk clean. What I mean by having a desk clean is keeping everything possible off it except that which is related to the matter in hand. I've observed in my time a good many men in their offices, and I can say that with very few exceptions the real men of affairs are those who are free from clutter.

"With a lot of papers in front of you it's almost a certainty that some hour in the day you're going to be flustered, and very likely it will be just when you want a clear head. The old idea that a mass of material every which way on the desk is a sign that a person is full of business is pretty well outworn. Such a collection not only indicates a lack of order, but also is a sign that nervousness may be expected from the man in the chair. What with filing cabinets and other devices no excuse can be offered nowadays for confusion.

"A well ordered desk means a well ordered mind, a mind taking up one thing at a time and giving it the proper attention. It denotes regularity and concentrated, effective effort."—New York Press.

Easy Going Dutch Spelling.

In the good old days when the Dutch were supreme in the administration of the affairs of New Amsterdam everybody knew everybody else, and it mattered little how proper names were spelled. Modern lawyers and civil service reformers would be shocked at the orthographical freedom of the clerks of the burgomaster's court of those times. Here is a sample case taken from the old Dutch records in which the name of a plaintiff is spelled five different ways:

In a case before the court in 1655 Jan "Hackins" is a complainant against the inspector of tobacco, who has certified to Jan "Hockins" that the tobacco was good. The inspector says in his defense that he inspected the tobacco at the request of Jan "Haeckins" on June 26, and aforesaid "Hagins" kept the barrel of tobacco until the 30th without finding out that it was bad. Then Jan "Haklns" has something else to say in the case.

The Charm of a Smile.

A beautiful smile is as potent in the drawing room as on the stage. Every woman can count among her acquaintances the favored few who possess the gift—not a studied, conventional smile that simply tightens the lips across the teeth, but the quick, responsive expression that springs first into the eyes and then to the lips. Another noticeable feature of this gleam of sunshine, which transforms the plainest face and can transfigure the most commonplace surroundings, is that it leaves the features as quickly as it appears.

Made Happy For Life.

Great happiness came into the home of S. C. Blair, school superintendent at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' dance, which yielded to no treatment but grew steadily worse, until as a last resort we tried Electric Bitters, and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by all drug stores. Price, 50c.

A Native African Food.

The native food of the Malunda country, in southern Africa, comprises manioc and that alone. It is a plant particularly adapted to wet, marshy soil, says the author of "In Remotest Barotseland." It takes two years to arrive at maturity and while growing requires very little attention. The root when full grown is about the size and has very much the appearance of a German sausage, although at times it grows much larger. One shrub has several roots, and the extraction of two or three in no way impairs the growth of the remainder. When newly dug it tastes like a chestnut, and the digestion of the proverbial ostrich can alone assimilate it raw, but when soaked in water for a few days until partly decomposed, dried on the roofs of the huts and stamped it forms a delightfully white soft meal, far whiter and purer than the best flour. Then it is beaten into a thick paste and eaten with a little flavoring composed of a locust or a caterpillar, which the natives seek in decayed trees. Another way of eating this native luxury is by baking the roots after soaking them and eating it as you would a banana.

George Eliot's Savonarola.

Savonarola is one of the most striking characters in George Eliot's great historical novel "Romola," the scene of which is in Florence and the period that of Savonarola's career. The idea of writing the book occurred to the novelist while on a visit to Florence, and on a second visit to the city, in 1861, she began to carry out her project. The subject and design were foreign to the author's genius, but she spared no pains in making a thorough study of the locality, the people and the literature of the Italian renaissance for the purposes of her story. In her own words, the work "plowed into her" more than any of her books. She began it, she says, as a young woman and finished it as an old woman. Her picture of Florence and Savonarola is undeniably impressive, and some critics declare "Romola" to be George Eliot's greatest novel and the character of Savonarola one of the finest delineations.—Pearson's.

G.B.Burhans Testifies After Four Years

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease have disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

He Was a Man.

A Scot of Peebles said to his friend MacAndrew, "Mac, I hear ye have fallen in love wi' bonny Kate McAlister."

"Weel, Sanders," Mac replied, "I was near—verry near—daein' it, but the bit lassie had nae siller, so I said to myself, 'Mac, be a mon.' And I was a mon, and noo I pass her by wi' silent contempt."

Traitor to Her Sex.

"Oh, she's not at all nice," said little Elsie. "She's always wishin' she was a boy."

"Well," replied Mabel, "I wish I was too."

"I know, but she wishes it out loud, so the boys can hear her."—Philadelphia Press.

Bilious Attack Quickly Cured.

"A few weeks ago I had a bilious attack that was so severe I was not able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man."—H. C. Bailey, Editor of The News, Chapin, S. C. These tablets are for sale by all druggists.

OVER NIAGARA TO HIS DEATH

In small Boat Man is Swept to Doom While Frantically Waving Hands.

Niagara Falls, N. Y., Nov. 28.—An unknown man was swept over the Horse Shoe falls in a small boat on Monday afternoon after a daring attempt had been made to save him.

An employee of the Ontario Power company first saw the little craft coming down the river in the grasp of the swift current. The occupant was a man, and he stood up, frantically waving his hands. Two row boats started down the Chippewa river towards Niagara to attempt a rescue at the mouth of the small stream. The rescuers went far beyond what is considered the danger line, but a cross current carried the unfortunate man away from them towrad Goat island, and in a few minutes he was carried over the Horse Shoe falls.

The would-be rescuers were by this time in a perilous position and it was with great difficulty that they succeeded in reaching shore. They were John Rapalejie, an employe of the Canadian Power company; Detective Greenwood and Louis B. Judd, in one boat, and George Gray and Thomas Flommerfelt in the second.

Morse Bidding for Ward Line.

Galveston, Tex., Nov. 28.—It is learned from a most reliable authority that Charles W. Morse, recent purchaser of the Mallory line steamers, is about to close a deal for the purchase of the Ward line steamers, known as the New York and Cuba Mail Steamship company. It is known that Mr. Morse was looking into the New York-Cuban business when gathering into his holdings the Mallory steamers and those of the Clyde line. With the addition of the Ward line, Mr. Morse will have a string of steamship lines covering more than 12,000 miles of ocean and river routes. The Ward line comprises eighteen finely appointed vessels. There are two new steamships of 8,000 tons each about ready for launching. It is understood that two of the finest of the Ward steamers will be transferred to the Mallory line plying between New York and Galveston.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Woman Murders Her Room Mate.

Meridian, Miss., Nov. 28.—Fancying that she was being wronged by her room mate in being awakened frequently through the night, Miss Mary Parker, an inmate of the East Mississippi insane hospital, killed her room mate, Miss Sallie Egger. To all appearances, death was produced by strangling, after which the head of the victim was beaten against the floor. The killing was not discovered until Monday, although attendants passed constantly by the apartment in which the women were confined every half hour of the night. The dead woman was 65 years of age, and formerly a resident of Lowndes county, Mississippi.

Chisolm Let Out on Bond.

Chisolm, formerly paying teller of the First National bank, whose hearing on the charge of extracting $100,000 from the First National bank, resulted in a mistrial Saturday on account of Juror Bicknel's illness, has been released from prison, his bond having been reduced from $25,000 to $15,000. The signers of the bond are Alexander R. Chisolm, Margaret H. Chisolm, John L. Chisolm, Robert Chisolm, Henry L. Chisolm, R. H. Haygood, E. W. Rucker and J. Burger.

Sluggish Liver a Foe to Ambition.

You cannot accomplish very much if your liver is inactive as you feel dull, your eyes are heavy and slight exertion exhausts you. Orino Laxative Fruit Syrup stimulates the liver and bowels and makes you feel bright and active. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and very pleasant to take. Orino is more effective than pills or ordinary cathartics. Refuse substitutes. J. W. McCollum & Co.

No... ...11 the Gold Hunter made ...progress with clear weather un... ...the afternoon, when the wind ...ed up from the northeast while ...vessel was 4 miles off Peter Ma... ...light. A sudden gust of wind ...the main sail of the vessel and ...ed away the jibs. Without her ...sails the little schooner became ...nageable. The sea made up ...ly and the vessel was continually ...ered in the wash of the comb... Mrs. McGuire was below at ...time the storm broke, preparing ...per, but rushed on deck and took ...wheel while her husband and his ...assistant went to work to bend on a ...foresail so as to bring the vessel up ...to the wind. With the craft wallow... ...wildly in the trough of ...sea, the task was most difficulty. ...With great patience and consumate ...seamanship the two men labored for ...hours to get their little rag of sail set, ...while Mrs. McGuire, lashed to the ...wheel, aided as well as she could by ...what little steering was possible, on ...the almost helpless craft.

Finally the foresail was rigged, double reefed, and while the two men clung exhausted to the mast, Mrs. McGuire brought the vessel around head up to the wind and held her there for 48 hours. Before the fury of the gale the vessel drifted out to sea for 96 miles off Mount Desert Rock. In all this time it was impossible to cook food or even to heat up any coffee. Kept up only by excitement and pluck, Mrs. McGuire clung to her post through the height of the gale, while Captain McGuire and his man attended to their little storm sail which continually broke from its insecure fastenings. It was a man's work at the wheel, with the helm "kicking" strongly to the wild plunges of the ship, but the endurance of the rugged north woman was equal to the test.

November 13 the gale abated, and the two men rigged temporary sails before Mrs. McGuire could be relieved from her post. All hands were exhausted with their struggles and exposure and under such scanty canvas as could be set, it was hard and slow work bringing the Gold Hunter into port where she had been given up for lost.

Will Discuss Tariff Revision.

Ottawa, Nov. 28.—The budget will be brought down Thursday. Tariff revision will be on of the first matters taken up by the house of commons.

KEEPING THEM FROM SOUTH.

Commissioner of Immigration Stops Immigrants.

Columbia, S. C., Nov. 28.—Being informed that immigrants intended for South Carolina were being held up at Ellis Island by the wholesale, Governor D. C. Heyward has seen the following telegram to Robert Waltham, commissioner of immigration, Ellis Island:

"Please advise facts. We have not a single person coming in an advanced, assisted or prepaid passage, so far as we are cognizant, and not one under even suggestion of contract, but all under strict compliance with United States statutes. If this is correct, I propose to carry the matter to the president immediately, and consequently request that you wire the facts, considering this as a notice of appeal. This state, as one of the constituent states of the union, has been acting in an open, legal manner under United States laws as interpreted by the state department, in all its immigration work, and any atempt of the kind reported will be most vigorously resisted. D. Heyward, "Governor."

Takes Part in Rehearsal.

New York, Nov. 28.—Enrico Caruso, the grand opera tenor, took part in a rehearsal Monday for the first time since his hearing in police court

ENRICO CARUSO.

begun. His throat was improved and Herr Conried, the impressario, is almost certain now that the tenor will be able to apear in his opening gagement as Rodolfo in "La Boheme" Wednesday night. Caruso, it was said at the offices of the Metropolitan Opera house, was received cordially at the rehearsal. The management of the Metropolitan Opera house was not ready to announce what plans it had made, if any, to prevent any demonstration on Wednesday night.

Medical Experts Testify.

Herkimer, N. Y., Nov. 28.—With interest heightened by the declaration of the medical experts that Grace Brown was clubbed before she fell into the water of Big Moose lake, there was a larger crowd than ever at the Gillette murder trial Tuesday. More than a thousand persons were turned away and those who got seats were on hand as early as 7 o'clock to secure them. Only two of the six doctors employed by the district attorney to perform the autopsy on the body of Grace Brown have been on the stand. The district attorney will probably finish the questioning of two more of them today. The prosecution cannot finish its side of the case before Thanksgiving and the case will not go to the jury before Wednesday of next week.

Japanese School Exclusion.

San Francisco, Nov. 28.—Arthur May Knapp, editor of the Daily Advertiser of Yokohama, arrived on the Siberia from the Orient Monday. Asked about the impression created in Japan by the Japanese school exclusion in San Francisco, he said he did not think it had or would ultimately lessen the cordiality of the entente existing between Japan and the United States.

LONE ROBBER SOUGHT CASH FROM THE RICH

Man Who Robbed Passengers Tells His Story.

WORKMEN EXEMPTED BY BANDIT

He Only Wanted Money from Those Who Made It Easy and Could Afford to Lose—Tells How He Was Overpowered and Disarmed.

Marshall, Mo., Nov. 28.—The bandit who held up the Chicago and Alton train Sunday night between Glasgow and Slater, was brought to the county jail Monday afternoon, and immediately opened negotiations with the prosecuting attorney, offering to make a full confession if the charge against him was made burglary.

In Missouri the maximum penalty for train robbery is death, and the minimum is ten years' imprisonment. The bandit then volunteered a statement as follows:

"My name is Claude Randall. My age is 20 years and nine months. I came from St. Louis to Mexico, Mo., on the Wabash and from Mexico to Slater on the Chicago and Alton railroad Sunday. My brother was the one who robbed the Golden State limited, and he told me that the Golden State limited did not stop between Slater and Mexico, and for that reason, I came to Slater to get on the train. I got on the smoking car and went through it, and entered two or three other cars.

"I did not take any money from workingmen and women, as I only wanted to take money from those who made it easy, and could afford it. One man on the train when he heard me tell another passenger that I did not want any of his money because he was a laborer, said he was a laborer also. I did not believe him, and asked him to show me his hands. Upon looking at them I found them as soft as a woman's. I then made him dig up, taking from him his $45 watch, which I told him I would send to the St. Louis Republic, where he could get it, as I only wanted it to keep time by until I got to my destination. When the train reached Glasgow, I got off on the platform, and as the train started to move I mounted it again, and began going through the passengers in a sleeping car, where I allowed the conductor to get too close to me, and he grabbed my pistol and my throat. He then wrenched the pistol from me and I broke and ran to the back of the train.

"Many of the passengers and all of the train crew rushed upon me, while the train was in motion, and struck me in the head with a pistol and tried to throw me overboard while the train was running 40 miles an hour. The train soon stopped, and I was captured and put off at Armstrong, and brought from there the next morning to Glasgow, and from there to this place. I got about $1,500 and about eight or ten watches from the passengers on the train. I did not want this jewelry, but they forced me to take it."

The prisoner is now awaiting a preliminary hearing, which will be held within a few days.

Had Served Prison Term.

Kansas City, Nov. 28.—The man who, at Marshall, Mo., confessed to having robbed the Alton-Burlington train near Glasgow, Mo., on Sunday night and who gave his name as Claude Randell and Claude Rumsey, who was released from the United States military prison at Ft. Leavenworth, Kans., Nov. 3, after serving a sentence for desertion from the army, would seem beyond question to be one and the same man. The description of both men tally in every particular, according to the prison record of the man given the Associated Press Tuesday by Maj. Young at Ft. Leavenworth. Major Young said that during Rumseys incarceration in the military prison it was necessary frequently to administer punishment for misconduct. He was considered a desperate man.

RESIGNATION OF CRAPSEY.

Will Likely Broaden and Liberalize Tenets of Church.

New York, Nov. 28.—The Tribune says indications are that the resignation of Rev. Dr. Algernon S. Crapsey, of Rochester, after his conviction of heresy by an ecclesiastical court, will set in motion a movement in the Episcopal church to broaden and liberalize its tenets.

Rev. Foxer Peabody is quoted as saying that while no steps had been taken in that direction yet, a meeting of men who desired a more liberal church faith was likely to discuss the sentence pronounced on Dr. Crapsey and its bearingg on themselves and the general situation within the church.

A Rochester, N. Y., special to the Tribune says that in a talk with the Rev. Algernon S. Crapsey Monday it developed that after thirty years of service in the Episcopal church and after having built up a church property valued at $150,000, he withdraws from the priesthood practically penniless and with not even a home to go to. His personal charities, added to what he has given directly to his church, have been many and large, and have depleted his resources.

Dr. Crapsey, it is stated, will now devote himself to disseminating his views on the platform and through the medium of the press and reviews.

"Big Stick" for Roosevelt.

Pittsburg, Nov. 28.—A "big stick" provided by nature is on the way to the president according to the Post. In a special dispatch from Marion, O., it is announced that Congressman Grant E. Mouser, of that city, received a large gourd from one of his constituents with a note requesting that it be delivered to President Roosevelt. The gourd is about four feet long and is said to resemble the published pictures of the "big stick." Attached to the gourd was the following message: "Mr. Roosevelt: Please accept 'big stick' and send to congress attached to your next message, and tell them to be good. It was apparently designed by providence for your official use. From your trust-busting Democratic admirers of Marion, O."

Will Build New Line.

Rome, Ga., Nov. 28.—The traction syndicate, composed of Louisville, Ky., capitalists, which recently purchased the Rome Street Car company's system are planing to build an electric line from this city to Rockmart, in Polk county, a distance of 25 miles, to connect with the Seaboard Air Line. This will bring Rome in close touch with two trunk lines and tap a fertile agricultural district which now has no steam or electrical railroad connection. The same company will put Rome in the racing circuit and conduct race meets here in conjunction with the meeting at Douglas Park, Ky.

Guards to Ride With Tillman.

Chicago, Ills., Nov. 28.—Following Mayor E. F. Dunne's refusal to preside at a meeting to be addressed by United States Senator Tillman, of South Carolina, because of strenuous objection made to Senator Tillman's appearance by the negro race of the city of Chicago, it was decided that the senator should be attended by a body guard from the time he arrives in Chicago from Plattsville, Wis., until he has delivered his address and enters the train on which he departs from the city.

Increase in Wages Granted.

Cincinnati, Nov. 28.—The first announcement of an increase in wages granted to local railroad employes was made Tuesday when the Baltimore and Ohio Southwestern railway granted their switchmen an increase of 4 cents per hour. The other roads have not as yet announced any increase and conferences looking to a settlement were held Tuesday.

Small Boy Scalded to Death.

Dalton, Ga., Nov. 28.—The son of A. H. Machmont, aged 3 years, fell into scalding water, and was so badly injured that he died a few hours later.

TAKE NEGRO TROUBLES BEFORE ROOSEVELT

Who Says He Is Willing to Consider

ANY FACTS THAT ARE NEW

But Gives No Further Indication of What His Future Course Might Be In Regard to His Recent Order Discharging the Soldiers..

Washington, Nov. 28.—The case of the soldiers of three companies of the Twenty-fifth infantry, who were discharged without honor because of the trouble at Brownsville, Tex., came before President Roosevelt Tuesday when Charles W. Anderson, collector of internal revenue at New York and Emmett J. Scott, secretary to Booker T. Washington, called in behalf of the claims of the innocent men of the companies who want to be re-instated. They had no particular program of action to present to the president and the latter gave no indication of what his future course might be, except to reiterate his statement that he would consider any new facts which might be presented.

El Reno, Tex., Nov. 28.—Gilchrist Stewart, a negro, who has been at at Fort Reno the past few days to secure data to be placed as evidence before Pesident Roosevelt in the matter of the discharge of the negro soldiers of the Twenty-fifth infantry, said Monday night:

"The substance of my investigation, supported by over one hundred affidavits from the members and non-commissioned officers of the companies and from the statement of the officers of the companies, amounts to this:

"'First, that the citizens did not want negro soldiers in Brownsville, Tex.

"'Second, that this feeling became so intense that on the very night in question, Major Penrose issued an order and sent out patrols through the town that all men should be in by 8 o'clock, whether on pass or not, and Captain Mackin, officer of the day, reported that all men were in except three on pass.

"'Third, that the firing that night was of mixed arms.

"'All the inspectors sent out from the war department have started out with the assumption that there was a conspiracy among the men to keep back the truth and shoot up the town. They have never made any investigation into the real facts. From the investigation there was undoubtedly a conspiracy to make a case against the soldiers and get them out of the town. Six sergeants of long service and in whom the commissioned officers have implicit confidence, are going to Washington with me to act as witnesses before President Roosevelt."

Dies From Gunshot Wounds.

Birmingham, Ala., Nov. 28.—Walter Willard, a young man from Chickasaw, Ala., died in a hospital here Tuesday from a gunshot wound inflicted by an unknown negro near that place. Willard was a member of a party of young men and women who were returning from a dance late at night. They met an unknown negro man when some of the young men became involved in a dispute with him. The negro fired a revolver into the crowd and fled. No one was hurt, but several members of the party followed him to his cabin where he barricaded himself and fired into his pursuers, mortally wounding Willard.

Roosevelt Returns to Washington.

Washington, Nov. 28.—President Roosevelt, bronzed and invigorated in health from his long sea trip to Panama and Porto Rico, was in his office early Tuesday. Secretary Loeb took to him a large amount of correspondence which had accumulated since the president departed and was with him up to the time of the cabinet meeting at 11.

"HIGHLY RECOMMENDS CUTICURA SOAP"

"I had been troubled with a breaking out on my face and arms for almost a year and had the services of several physicians, but they didn't seem to do any good. Some time ago one of my friends recommended Cuticura to me. I secured some, and after using it several months I was completely cured. I can highly recommend Cuticura Soap as being the very best complexion Soap made. It creates a perfect complexion, leaving the skin soft, white, and velvety. I now use Cuticura Soap all the time and recommend its use to my friends." Maud Loggins, R. F. D. No. 1, Aug. 1, 1905. Sylvia, Tenn.

LUCK IS WITH LEWIS.

Has Secured Lease on Large Body of Timber in South Florida.

R. F. Lewis of Bell, for the past two or three years engaged in the crosstie contracting business, passed through Gainesville Tuesday en route from Osceola county.

Mr. Lewis states that he intends to engage extensively in the naval stores and crosstie business at an early date, having just closed the lease for 73,000 acres of fine virgin timber in Osceola county, which is said to be the finest body of timber intact left in that section of the State. A large number of hands will be employed, and Mr. Lewis feels confident that he will make a big thing out of the venture.

THE MOTHERS' MEETING

Held at W. C. T. U. Reading Room Was Well Attended.

The Mothers' Meeting held at the W. C. T. U. reading room Monday afternoon was a very enjoyable as well as instructive meeting. The room was filled to overflowing, and everyone seemed ready to do all in their power to make the meeting a success.

The program began with a song, "A Little Talk With Jesus."

Scripture reading by the president.

A chain of prayers led by Mrs. Futch.

"Pure Food and How to Obtain It"—Mrs. O. B. Bailey.

Temperance Duet—Sung by the Misses DeLand.

"The Antiseptic Baby." Poem—Mrs. Webster.

Remarks by the ladies and "Phyllis in the Kitchen," by Mrs. Dr. Robb.

"Florida State Temperance Song."

The Lord's Prayer in unison.

These meetings are to be held the last Monday afternoon of every month, and promise to be a great treat. Arrangements are to be made at the room for some one to look after the children, so that mothers need not be kept at home on that account.

Mrs. Dr. Thomas gave each one of the ladies present a piece of cake, made without butter or eggs, which was very fine, and many a house-wife during the winter season would do well to know how to make these very toothsome compounds at a trifling expense. Come to our next gathering and find out.

CURE CATARRH NOW.

Do Not Wait Until Winter or Disease Will Become Chronic.

Many people in Gainesville are beginning to cough and hack with the fall symptoms of disagreeable and offensive catarrh. The tongue is coated in the morning, and they do not sleep well at night on account of the disagreeable tickling and dropping at the back of the throat as a result of catarrh. Before the disease becomes chronic they should use Hyomei and get complete freedom from their catarrhal troubles.

If you neglect to treat catarrh when it first comes on, the chances are that it will become so firmly rooted and deep-seated that it will bother you all winter and may become chronic and almost incurable.

The first day's use of Hyomei will show a decided improvement in health, and in a short time there will be no further trouble, and you will be free from catarrh, and coughs and colds will not bother you during the winter.

Remember that Hyomei is sold under an absolute guarantee that it costs nothing unless it cures. J. W. McCollum & Co. have sold a great many Hyomei outfits, everyone with their personal guarantee that it costs nothing unless it cures, and they have seen so many remarkable evidences of the curative powers of Hyomei that they are very glad to continue giving the guarantee with every package.

A complete Hyomei outfit costs but $1; extra bottles, if needed, 50 cents.

CALLISON IS TAKING MANY BIG PRIZES

Stock From Spring Park Farm is Center of Attraction.

MANAGER CALLISON IS HAPPY

The Judges, Recognizing the Superior Quality in Beef and Dairy Breeds, Awards Many Prizes to the Cattle From This Celebrated Farm.

The following from The Tampa Daily Times of Saturday will prove of interest to the people of this section:

"Manager N. A. Callison of the Spring Park stock farm and Fair commissioner from Alachua county, is feeling pretty good these days in spite of the hard work which he has undergone in getting his county's exhibit into shape. The cause of his joy is the fact that not only did he carry off the grand championships of the best beef breeds, in addition to a number of other prizes, with the magnificent herd of Herefords from the farm, but, on Thursday, that splendid specimen of a Jersey bull, Fancy Golden, was selected as grand champion bull of the milk breeds. Madeline, imported direct from the island, was declared grand champion of the aged class, and Bluebells Dinah grand champion of the junior class. But in addition to this he is especially proud of the fact that his young Hereford bull, Col. Thomas J. L. Brown, named after the president of the Fair Association, captured the junior championship of the beef breeds."

Deceased was ninety years of age, and was a native of Barnwell county, South Carolina, but came to Georgia when a young man, and where he reared an interesting family. His was a life of usefulness, and he was one of the most widely known men in Southwest Georgia.

G.B.Burhans Testifies After Four Years

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease have disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." Fire in North Gainesville.

The home of Howell Keene, North Gainesville, was completely destroyed by fire between 9 and 10 o'clock Sunday night, and all the contents were lost.

The home was a five-room cottage. It has been owned by Howell and George Keene, and occupid by the former. There was apparently no one at home at the time the fire occurred, which accounted for the headway before being discovered. It is understood that there was no insurance.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause consumption, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

Death in Alachua.

Information has reached this city of the death of Alexander Young, the twenty-year-old son of Mr. and Mrs. Geo. W. Young, which occurred at his home in Alachua of hemorrhagic fever Monday. The funeral was held Tuesday afternoon, and was conducted from the home of the deceased.

Had a Close Call.

"A dangerous surgical operation involving the removal of a malignant ulcer as large as my hand from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Sneed of Milcton, W. Va. "Persistent use of the salve completely cured it." Cures cuts, burns and injuries. 25c at all druggists'.

ELKS' MEMORIAL SERVICE.

Annual Exercises Will Be Held by Gainesville Lodge No. 990.

The members of Gainesville Lodge No. 990, Benevolent and Protective Order of Elks, are anticipating with a great deal of interest the annual memorial session of this lodge, which will be held on the evening of Sunday, December 2, and the necessary preparations are now being made for the exercises.

These memorial exercises are held as the name indicates, in reverence of deceased brother Elks simultaneously once each year in every lodge of the order in the United States. The exercises are of a public nature, open to everyone, and, on account of the beautiful memorial ritual, are very impressive.

The arrangements now being carried out are in the hands of a competent committee, and the program, which will include vocal and instrumental music, addresses, etc., will be published as soon as completed.

The place of holding these services has not yet been selected. As a rule the exercises are held in the lodge room, but owing to the inaccessibility of the room, together with its cramped condition for occasions of this nature, a more commodious place may be secured. The Tabernacle will probably be used, as indications are that the exercises will be well attended.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tacket of Alliance, Ky., as a year of blood, which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored, and as time has proven, permanently cured." Chicken Thief Captured.

J. T. Wood of East Gainesville feasted on 'possum for Monday breakfast, and this is how it happened:

Mr. Wood heard a commotion in his fowl-house Saturday night, which led him to suspicion that things were not running just as smoothly as they ought to in that immediate locality. Accordingly he armed himself and went in search of the would-be intruder, and was surprised to find the animal in the house.

His 'possumship was quickly dispatched before he had an opportunity to fulfill his mission.

ORANGE HEIGHTS NOTES.

Many People Gone and Town is Dull. An Immense Orange Season.

Orange Heights, Nov. 28.—Dead silence seems to have fallen in this place today. So many have gone. Those that haven't gone to the Fair seem to be in Gainesville or somewhere else.

Mrs. Hall and daughter, Miss Belle, have gone to Port Orange, to be gone sometime visiting an elder daughter and sister.

Mrs. Hazel and daughter, Josie, are visiting in South Florida.

Mrs. Paulsen is enjoying a pleasure trip.

Mr. and Mrs. Chas. Eddy are in Gainesville today.

Many were called to Gainesville to attend the trial of the wife of Henry Howard, who was found guilty of murder in the second degree.

Dr. and Mrs. Curtis attended the Fair last week.

Mrs. Henry Bryan was visiting in Campville Monday.

Mr. and Mrs. Chas. Eddy, who had been spending several days at the Tampa Fair, returned to their home Sunday.

Miss Hattie Cartwright was a business visitor in Melrose, having sold a tract of land to J. A. King.

Mr. and Mrs. Ward of Hawthorn are visiting their daughter, Mrs. J. A. King.

Ben Lumpkin is taking in the sights at the Fair.

It is rumored that we are to have a new turpentine industry.

We had a very pretty and quiet little wedding Sunday, the 18th, when Miss Alice Burch was made the wife of John Lewis of Georgia. The wedding took place at the home of the bride, who is the daughter of J. S. Burch at this place. Only a few invited friends and relatives were present, including the father of the groom, who came all the way from Georgia to witness the marriage of his son. The ceremony was performed in a very solemn and impressive manner by Rev. Sistrunk of Melrose. After congratulations and refreshments, the father took his departure for his home in Georgia, and the bride and groom for their new home in Hawthorn. The form of rice and old shoes was omitted, but many good wishes for happiness and prosperity followed them on their journey.

Rev. Sistrunk will preach his farewell sermon here next Sunday, 8 p. m., unless the Conference sends him back to this work. He has made many friends here and has done a good work in this field, and the prayers of his people will follow him wherever he may go.

Orange picking and shipping is rapidly going on. The crop is immense in this locality.

Mr. Willis of Hampton has accepted a position with the Melrose Manufacturing Company, and has moved his interesting family to this place.

MR. FERGUSON'S PATENT.

Micanopy Man of Ingenious Turn of Mind Invents Fish Trap.

A patent agency of Washington, D. C., announces among other patents issued to residents of the Southern States, a fish trap, of which C. R. Ferguson, a well known citizen of Micanopy, is the inventor.

The nature of this trap is not explained, but since its virtues warranted the granting of the patent, there must be some decided advantage, and the patentee is to be congratulated. His friends trust that it will be a profitable invention for him.

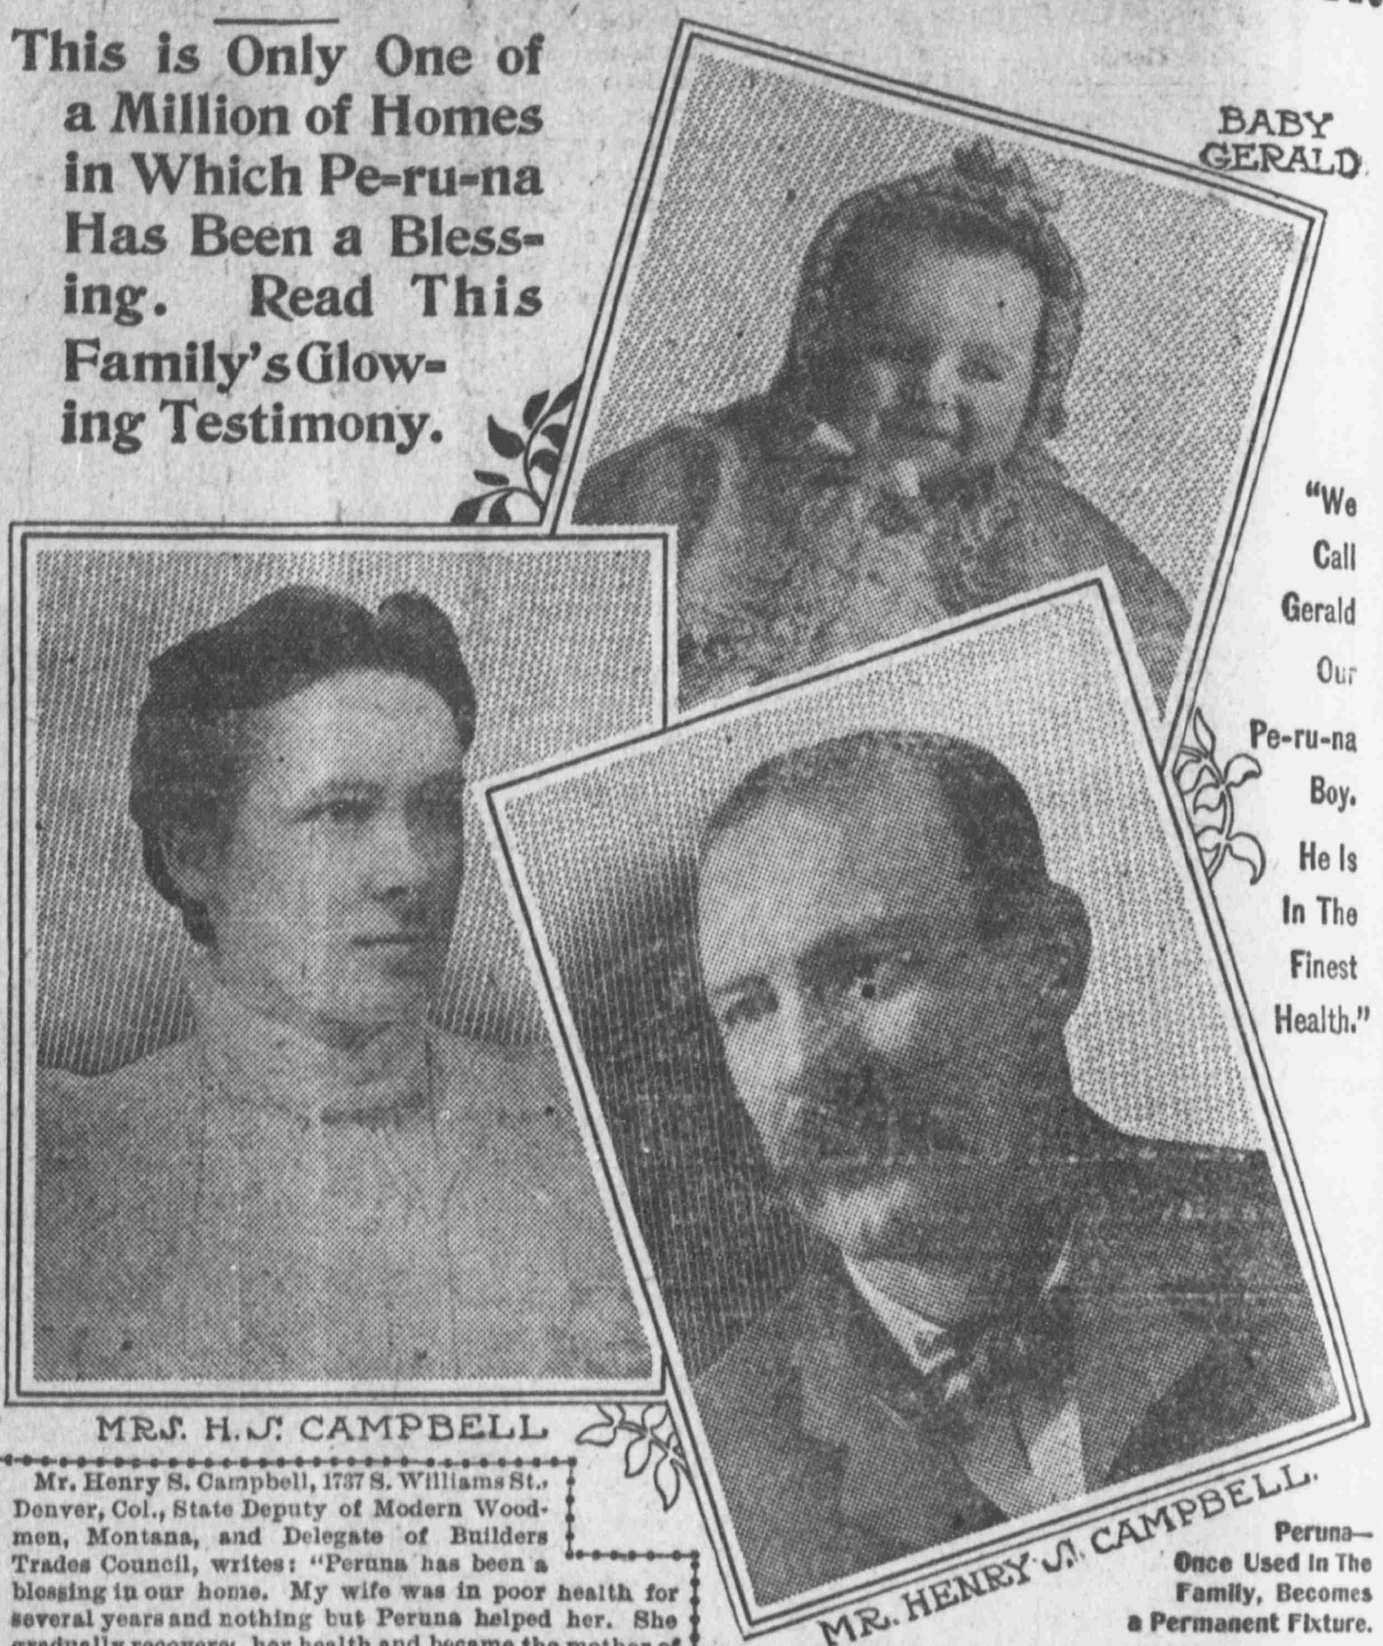
PE-RU-NA KEEPS THE FAMILY IN THE BEST OF HEALTH.

This is Only One of a Million of Homes in Which Pe-ru-na Has Been a Blessing. Read This Family's Glowing Testimony.



Peruna—Once Used In The Family, Becomes a Permanent Fixture.

Mr. Henry S. Campbell, 1737 S. Williams St., Denver, Col., State Deputy of Modern Woodmen, Montana, and Delegate of Builders Trades Council, writes: "Peruna has been a blessing in our home. My wife was in poor health for several years and nothing but Peruna helped her. She gradually recovered her health and became the mother of a boy which blessed our home. We call Gerald our Peruna boy. He is in the finest of health and his mother has never enjoyed such excellent health.

"I have personally found Peruna of great value to me while traveling. Getting irregular meals and often poorly prepared food ruined my stomach, but Peruna toned up my digestive organs and brought fine health to me.

"We are never without Peruna in our home and know by experience that it keeps us all in the best of health."

A RECENT LETTER.

A recent letter received from Mr. and Mrs. Campbell is, as follows:

"We still use Peruna and in addition to our son, Gerald, who is a fat and saucy lad of 28 months, we have another son, still larger for his age. He is now ten months old and is always healthy.

"His mother says Peruna has surely made both of our children as healthy as they are, helped, of course by Colorado's healthy air.

"A bottle of Peruna is at all times a welcome visitor to our home."

A multitude of families have discovered that Peruna is their standby.

In all the catarrhal ailments which are likely to beset the various members of the family, Peruna is the remedy that brings quick relief.

No matter whether it be a catarrhal condition of the head or lungs, or a derangement of the stomach and bowels, Peruna is the remedy.

NEWS FROM MELROSE.

A Delightful Motor-Boat Party—Meeting of Woodmen—Other Notes.

Melrose, Nov. 28.—Early in the week Mr. and Mrs. Hamlyn delegated to R. Yearwood the pleasant permission of inviting ten of his young friends for a ride in their motor launch on Saturday afternoon. Promptly on time the young host arrived with his friends, and a nicer lot of girls and boys would be difficult to find. After being received by Mr. and Mrs. Hamlyn with their usual cordial welcome, and all being safely seated, the "Effie," under the able management of Mr. Hamlyn, moved off in fine style. During the trip across Lake Santa Fe oranges and candy were served and much appreciated. When the Pumpkin Patch was reached the children went ashore for a few games and a ramble in the jungle. The return trip was enlivened with songs by the merry party. Many thanks for a most enjoyable afternoon were tendered to Mr. and Mrs. Hamlyn by their happy guests on their departure.

Rev. A. B. Moseley is receiving the congratulations of his friends on the arrival of a fine boy.

O. C. Husband of Grandin was a visitor to town during the week.

Archdeacon Goodwin will hold evening services at Trinity Church at 7 p. m. on Sunday, December 2d.

Rev. and Mrs. Sistrunk, Mrs. Mullins and Mrs. Coward have all returned from the Tampa Fair, and are most enthusiastic over the fine display made by Alachua county.

THE CIRCUIT COURT.

After Hearing a Few Motions Wednesday, Adjourned to Thursday.

There was little done at the session of the circuit court Wednesday. After hearing a few motions on cases pending, and little other business of minor importance, the court adjourned until Thursday morning at 8:30, when the civil docket will again be taken up.

The criminal docket at this session has been a heavy one, but Judge Palmer pushed matters. The trials were just but speedy, little time being wasted. The court convicted at this session sixteen prisoners for various offenses, which is the largest number convicted in the same length of time for several years.

THANKSGIVING DAY.

This is the day set apart by the President of the United States and the Governor of Florida as a day of Thanksgiving—a day wherein every man, woman and child should bow their heads in humble prayer to their Maker for the great blessings He has seen fit to bestow upon every one of us, no matter how wicked and sinful we might have been all our lives. He has been good to the sinner as well as to the saint, has caused the rain to fall upon the unjust as well as the just, has given the farmer abundant crops and the merchant a prosperous year, for all of which we should be thankful.

A great many people misconstrue the object and purposes of Thanksgiving day. There are some people who, with gun and dog, take to the woods to shoot the innocent and unsuspecting quail or dove, and others for any kind of sport, fun or frolic, or anything but the real purpose for which this day is intended. Some few have a different view, and will remain at home and discuss their neighbors, their faults and habits, not for a moment speaking of their good traits. Then there is a class who well know the object and purpose of Thanksgiving day and who will spend it as it should be.

These good people will meet in the holy sanctuary and lift up their voices in prayer to the Great Ruler of the Universe for the many blessings and comforts showered upon them and their heirs. This is the proper observance of the day, and is in accord with the proclamation designating it as a day of thanksgiving.

Young people, stop and reflect before you desecrate this day. Celebrate it as it should be, and as it was intended to be—a day of prayer and thanksgiving to the Divine Ruler for His goodness and kindness to us through all our lives. Turn over a new leaf, and assemble with the good people at the Tabernacle and properly observe the day by offering up to your Master humble prayer for His blessings.

The recent conviction of prominent lumber men of Alabama on the charge of peonage—holding people in restraint for debt—will tend to make a certain class of laborers regard with less honor their obligations to their employers. Under the laws of the United States one cannot be forced to work out a debt for money or goods advanced, no matter whether the agreement to do so be verbal or in writing, and any State law to the contrary is unconstitutional. This peonage act is an injustice to employers who advance money and goods to their laborers, and some protection should be afforded. Of course imprisonment for debt is repugnant to the American people, but there should be some method provided by which to force a certain class of people to fulfill their obligations.

Col. J. H. Estill, editor of The Savannah Morning News, a candidate for the Democratic nomination for Governor in the late Georgia primary, has entered suit against The Atlanta Journal for libel in the sum of fifty thousand dollars. The suit is based upon a card published in The Journal charging Colonel Estill with having bought 2,270 votes.

ALACHUA'S EXHIBIT.

The following write-up of Alachua's exhibit at the State Fair, which is taken from The Tampa Tribune of November 24th, demonstrates that the Board of County Commissioners made no mistake when they selected N. A Callison as general Fair commissioner, as well as the sub-commissioners to assist him. Each member of the Board of County Commissioners has also been especially active in working up the exhibit, and the result is that Alachua county is more creditably represented at the State Fair this year than at any Fair heretofore held in Florida. The Tribune says:

"Patriotically decorated in the beautiful colors of the great Florida State Fair—orange and white—Alachua county's big exhibit makes at once a beautiful and an imposing appearance, thoroughly representative of the extraordinary resources of one of Florida's finest sections.

"That Alachua county's exhibit is such a varied and a complete one, is due to a great extent to the efforts of her energetic Fair commissioner, N. A. Callison, manager of the Spring Park farm, Gainesville, who is in charge; H. S. Graves, the prominent horticulturist; T. J. McRae, formerly of The Atlanta Journal and The Macon Telegraph, who has charge of the arranging of the displays, and their charming lady assistants at the booth, Miss Kittie Carlisle and Miss Dampier. It is to Mr. McRae that the reporter was indebted for showing him through the exhibit.

"Most advantageously located in a favored part of Florida, Alachua county is a region of great opportunities, possibilities and great natural resources, to which its exhibit gives a good index. Nearly everything the citizen of Alachua county needs to make him happy, prosperous and wealthy, is found within the county's borders. A citizen of Gainesville can almost surpass the feat of the famous Atlanta man who traveled from there to St. Louis in a wheelbarrow made in Atlanta, wore clothes made in Atlanta, and ate only food coming from Atlanta.

"On the whole, Alachua's exhibit shows up especially strong in agricultural products, cotton growing, phosphate, minerals and manufactures, making a very attractive, interesting, valuable, instructive and well-rounded display indeed, and one of which every citizen of Alachua county may well feel proud.

"Notwithstanding a northerly position in the State of Florida, her display of citrus fruits, oranges, lemons and grapefruit, is unusually fine, exciting the admiration of everyone entering the exhibit. The fruits were sampled by The Tribune reporter and were found to be of excellent flavor as well as of inviting appearance.

"Not only are fresh fruits shown, but canned and preserved fruits of nearly every variety grown in Florida were seen in the industrial department. Twenty-eight varieties of preserves are on display, and many things for which no prizes are offered. Alachua's display of both home-made and factory products along this line is very complete.

"A beautiful collection of native woods, embracing 73 varieties, holds the attention and excites the admiration of the visitor. A cypress block nearly six feet in diameter, cut 92 feet from the ground from a tree 12 feet in diameter at the base, is shown. Beside the same tree stood another from which many thousand shingles were made. The former tree was 122 feet high.

"Naval stores form an important part of Alachua county's fine exhibit. The manner of tapping the trees is shown. A sample of pure turpentine manufactured from pine knots and tree stumps by a new process shows that many of Florida's so-called 'waste materials' will yield a good profit when enterprise and inventive genius meet.

"An axhandle seven feet long proves interesting, as it was intended to be used in the Everglades, but since the recent political Waterloo it is probably destined to be unused. Perhaps it is just as well that the Governor's drainage scheme fell through, as Broward might have taken a notion to repeat George Washington's adventure, and he would have certainly done a lot of damage with such a big weapon.

"Alachua county has a fine display of minerals. Indeed, it is, minerally, one of the richest sections in this part of our country. Phosphate mining is a most important industry. A kiln is on exhibition showing the manner of burning the rock to obtain this valuable mineral. In this display is shown the petrified knee-bone of some mammoth prehistoric animal, found 65 feet underground.

"Cotton! This enterprising county has a complete display of cotton, both short and long. A number of bales of the famous 'Sea Island' variety are shown. 'Sea Island' cotton, as is well known, is the most valuable kind grown, and there are only a few places where it can be cultivated. The entire display of cotton is worth $3,000.

"Alachua county is a fine truck region. This business has doubled in three years. Some beautiful samples of lettuce, the first of the season, are shown at the exhibit. The trucking industry will help to keep Alachua in the first rank among Florida counties.

"Eleven varieties of fine sugar-cane, and many other products too numerous to mention, such as corn, potatoes, velvet beans, etc., render Alachua's agricultural exhibit a most complete one in every way. Fourteen various kinds of pecans are shown. Some time the growing of the latter is destined to become an important feature in Florida. A potato vine is on exhibition, over forty feet long. Samples of oats, wheat, corn and rye, which are readily grown in Alachua, make a fine appearance.

"In the manufactures exhibit is shown samples of fertilizer made by the Standard Fertilizer Co., Gainesville, and a large assortment of canned goods put up by local canneries, of which Alachua county has several. The Standard Fertilizer Co. expects to open a Tampa branch in the near future.

"Much of the beautiful citrus fruit on display was furnished by Capt. D. E. Maxwell, general manager of the Seaboard Air Line, who owns the largest grove in Middle Florida. The handsome specimens of blood grapefruit and other fruits from his grove have excited much favorable comment and are especially fine.

"J. R. Williams, who owns a $40,000 orange grove near Tampa, furnished the beautiful specimens of Sea Island cotton. Many of the fine agricultural products came from the 4,000-acre Spring Park farm. B. W. Fontaine, Micanopy, also furnished much beautiful citrus fruit.

"Gainesville, the county seat of Alachua, a city of charming surroundings, great opportunities and unusual enterprise, and now the home of the State University, is represented by the industrial edition of The Gainesville Daily Sun, which speaks for Alachua county as well.

"As an additional proof of Alachua's greatness, it should be remembered that the sails of the cup defender 'Columbia' were made from Alachua county cotton. Later a cotton gin, invented and patented by James Doig of Gainesville, will be put in operation at the exhibit, and everyone is invited to witness the process of ginning."

THE GREAT DANGER.

According to Mr. Carnegie, the very gravest of the dangers that beset young men who aim at success in business is the habit of intoxicating liquors. He says in his book, "The Empire of Business:"

"The first and most seductive peril, and the destroyer of most young men, is the drinking of liquor. I am no temperance lecturer in disguise, but a man who knows and tells you what observation has proved to him; and I say to you that you are more likely to fail in your career from acquiring the habit of drinking liquor than from any or all of the temptations likely to assail you. You may yield to almost any other temptation and reform—may brace up, and, if not recover lost ground, at least remain in the race, and secure and maintain a respectable position. But from the insane thirst for liquor escape is almost impossible. I have known but few exceptions to this rule."

ALL DRUGGISTS; 50c. AND $1.00.

Dr. W. McL. Dancy of Jacksonville was seriously injured one day last week by being thrown from a horse while deer hunting near Crescent Lake. He fell on his shoulder, breaking his right arm in two places, injured his left arm so badly he could not use it, sprained his back, badly bruised his body in several places, and is now in a critical condition at his home. Dr. Dancy is one of the best known dentists in Florida and was for years prominent in politics both in Duval county and the State. His numerous friends hope for him a speedy recovery.

The Mercury, an illustrated sheet established at DeLand as an administration organ, has "turned up its toes." The defeat of the drainage amendment is said to be largely responsible for its demise.

According to the latest returns the drainage amendment was "snowed under" in the election on November 6th by 5,007—over two to one. All the other amendments were defeated.

PRISONERS TO CAMP.

Transfer Agent Bridges Took Number Away Wednesday.

State Transfer Agent T. E. Bridges of Ocala left Wednesday with fourteen prisoners, all of whom were convicted for various offenses and sentenced at the present term of the circuit court.

Of this "bunch," two were sentenced for life imprisonment, having been convicted of murder in the second degree. One of these was a woman, Josie Howard, who killed another woman at Melrose over a trivial matter some time ago.

The majority of the prisoners will serve sentences in the phosphate mines of Citrus county.

JUDGE MASON'S COURT.

Just Christianson Sent Up for Four Months for Larceny.

The mills of justice were set to grinding in the court of County Judge Mason on Wednesday for the first time in several days.

Just Christianson, a name which does not appeal to anything unlawful, was arraigned upon a charge of larceny of a pistol and watch from W. W. Brown at Lochloosa a few days ago. The prisoner weakened immediately upon being arraigned and pleaded guilty, when he was sentenced to pay a fine of $100 and spend four months on the "gang."

Having failed to pay his fine, the prisoner was sent to jail.

DEATH DEALT BY SHAKY HAND

Drunken Man Fails to Rob but He Murders.

Kansas City, Nov. 27.—In an attempt to hold up and rob J. Frank Emery, proprietor of the Kentucky house, a second rate hotel at 905 North Sixth street in Kansas City, Kans., Emery was shot and killed and Lee Simons, a negro porter, was shot in the sholder and slightly wounded. Charles Rumble, aged 32, an iron molder, from Independence, Mo., one of the would-be robbers, was shot in the cheek by officers, who pursued him and Sam Hutton.

Rumble and Hutton were intoxicated. They entered the hotel, and walking over to the desk, told Emery to hand over his money. No guests were in the lobby at the time. Emery told them to get out, that he had no money. The men staggered from the desk apparently to make their departure. When they reached the door, however, Rumble braced himself against it and with a shaky hand fired two shots at the hotel proprietor. Guests rushed into the lobby and found Emery dead, lying across the hotel register, which was spread open on the clerk's desk. One bullet from Rumble's revolver went wild. The second had pierced Emery's chest just below the heart, causing almost instant death.

Rumble and Hutton fled down the stairway. There they encountered Simond, the porter, who had been attracted by the shots and was just ascending the steps. Rumble fired a shot at Simon that struck the porter in the shoulder, and the robbers pushed by him and bolted for the street.

Rumble and Hutton were seen by the officers on Minnesota street, a block away from the hotel, and gave chase, firing as they ran. One bullet struck Rumble a glancing blow on the cheek and caused the molder, because of his drunken condition, to stagger and fall. Hutton stopped and the pair were soon landed in jail.

Want Tillman Gagged.

Chicago, Nov. 27.—A committee of negroes, headed by Rev. A. J. Casey, pastor of Bethel M. E. church called upon Mayor Dunn and asked that he use the police force if necessary to prevent the delivering of an address on the race question by Senator Tillman next Tuesday night, on the ground that the address would be a menace to public safety. Mayor Dunn, after receiving the committee wrote a letter to Mrs. Adele Keeler, secretary of the Chicago Union hospital, for the benefit of which Senator Tillman is to speak, declining to act as chairman at the meeting.

A Pretty Experiment.

A very pretty effect may be produced by using some aniline dye in powdered form in alcohol. Fill a small glass with the alcohol and drop the smallest portion of the dye on its surface. It will shoot down through the liquid, like a strand of color, dividing into two branches, which will subdivide again and again until you have, apparently, an inverted plant in miniature growing before your eyes. An arrangement of mirrors may be made to throw the reflection of this on a screen or a wall, and the enlarged shadows will be very interesting to watch.

POLICEMAN JONES WAS SHOT.

Tragedy in Decatur, Ala., On Sunday Morning.

Decatur, Ala., Nov. 27.—J. Lem-Jones, night policeman in Decatur, was fatally shot, about 1 o'clock Sunday morning, in front of the house of Alice Williams, who runs a resort on the river front and Alabama street.

About 12:30 o'clock the Williams woman telephoned to the mayor's office and asked that an officer be sent to her house. Jones, being in the office, proceeded to see what the trouble was. On reaching the house, Wayne Moore and Will Wade was pointed out to him by the Williams woman as the parties doing the shooting and causing the disturbance. He placed Moore under arrest and started out of the door with him, when Will Wade shot him from behind, the bullet striking Jones behind the ear, and he fell on the porch. Ward and Moore escaped, and have not been as yet captured. He was removed to his residence and died at 7:30 o'clock Sunday morning.

Lem Jones was one of the most popular men in Morgan county, and a brave and fearless officer. He was defeated for sheriff by a few votes at the August primary, and has been on the police force since. He was a very prominent Mason, and councillor of the Winona council, No. 3, J. O. of U. A. M. The coroner has empaneled a jury, and an investigation will be made. Alice Williams, Jim Richard and Harry Copeland were arrested and placed in jail to appear before the coroner's jury.

The people of Decatur are very much worked up over the affair. This is the third police officer that has been killed in Decatur in the discharge of his duty in the past eighteen months.

SANTA FE SHIPPING COTTON HEAVILY

...e Solid Carloads, or 300 ...les, to Move From There.

BULK OF THE CROP

This Shipment, But Nearly ...00 Will Be Distributed Among ...rowers in the Santa Fe and ...land Sections.

Santa Fe, Nov. 27.—Santa Fe is fast becoming a large shipping point for cotton. Last year there were some six hundred bales shipped from this point. The first shipment for this season is being loaded and will consist of twelve solid carloads, containing three hundred bales. The sale was made by Capt. J. L. Matthews of Bland to W. W. Gordon, so the amount of cash that will be left among the farmers of this and Bland section for the sale will amount to nearly thirty thousand dollars. The bulk of the crop in this vicinity is in the shipment.

On Thursday night, the 22d, both of the old hotels at Worthington Springs were burned with contents. As the houses were unoccupied at the time the cause is unknown.

Cane grinding is the order of the day. The cane being killed by the late freeze has caused the farmers to rush the grinding. Seed cane that was cut before the freeze is killed, which will cause the majority of the cane growers to be minus in the crop next year.

The continued dry weather is greatly damaging the vegetable crop here.

Santa Fe is beginning to be lively. Brown & Co. of Live Oak, who have bought out the claims of the Valdosta company, are putting up a large distillery here. W. B. Holder of Citronelle, who owns a large interest south of here, contemplates putting his still here also. Unless there is a consolidation there will be two companies operating here in the near future.

The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's world-famed medicines leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicines *in a class all by themselves.* They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood-purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves.

Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a better solvent and preservative of the medicinal principles residing in our indigenous, or native, medicinal plants than is alcohol; and, furthermore, that it possesses valuable medicinal properties of its own, being demulcent, nutritive, antiseptic, and a most efficient antiferment.

Neither of the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret medicines largely, but the most intelligent people employ them —people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such *profcssional* endorsement.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

VERY DIFFICULT TASK.

In Compilation of Confederate Post of Roster of Officers.

Washington, Nov. 27.—The compilation of the confederate part of the roster of officers and enlisted men of the Union and Confederate armies provided for in an act of congress in 1903, has been footed by the war department to be a difficult task on account of the incompleteness of the Confederate connection in possession of the department.

During the year a considerable number of records of North Carolina and Virginia confederate organizations and a few organizations from Florida, Mississippi and Texas, were received by loan and these were carefully copied. During former years the work had progressed well from records from Alabama, Arkansas, Florida, Georgia and Kentucky. In order to make the rosters as complete as possible data is being taken from the union records of confederate prisoners. Up to date the whole number of index record cards presented from the Confederate roster is 3,360,441.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.
